

# IQSIGHT SOFTWARE ASSURANCE

Over the past 10 years BVMS has consistently highlighted the Software Maintenance Agreement (SMA) as an investment-protection program that provides entitlement to software upgrades, cybersecurity updates, technical support, and long-term lifecycle continuity.

IQSIGHT's June 2026 Product Life Cycle announcement places a strong emphasis on upgrading BVMS systems to version 11.0 or later before the shutdown of the legacy Software License Manager.

Bosch Software Assurance PRO is the mechanism enabling customers to gain access to Software improvements without purchasing new base licenses. The core value proposition has remained consistent.

## IQSIGHT SOFTWARE ASSURANCE GO (FREE)

- Security Knowledge Base
- Technical literature
- Training Academy access

## IQSIGHT SOFTWARE ASSURANCE PRO (PAID SMA)

- Major BVMS releases
- Minor releases
- Hotfixes
- Technical support
- Third-party compatibility updates
- IT security updates

Whether you're already part of the IQSIGHT ecosystem or considering a switch, now is the perfect time to upgrade your surveillance infrastructure with exclusive discounts and free services.

## SMA UPGRADE PROMOTION

**30%**  
**DISCOUNT**

Upgrade to BVMS 11.x for Legacy sites including the supported hardware

**20%**  
**DISCOUNT**

Upgrade to BVMS 13x for existing BVMS 11/12.x sites including the supported hardware

**1**  
**YEAR FREE**

Add a 3 year forward cover Assurance Pro to your existing system and receive the 3rd year free. You only pay for 2 years.

## CONVERT CAMPAIGN

- Switch your current system to BVMS and receive even more promotional discounts. These are case-by-case.
- Buy-back options available for qualifying customers.
- Financing options available for qualifying customers.

## FREE ASSESSMENTS BY LUNARX

- Free remote compatibility and evaluation of your current system
- Free technical support to ensure a seamless integration.

# BENEFITS OF SOFTWARE ASSURANCE PRO

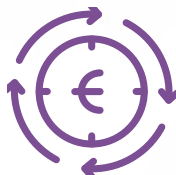

## Prevent Critical Issues

- Platforms constantly evolve
- Operating systems change
- Device drivers change
- Integration requirements change
- SMA ensures systems remain operational and supported.

## Increase Return on Investment

- Extend hardware lifespan
- Avoid replacement costs
- Minimize re-engineering
- Reduce upgrade expenses

## Always Access the Latest Software Enhancements

- Major BVMS releases
- Minor releases
- New functionality
- Technology improvements

## Keep IT Security Up To Date

This became a critical requirement from 2020.

- Cybersecurity
- Data privacy
- Security patches
- Vulnerability remediation

## Predictable Budgeting

- Fixed maintenance costs
- Planned upgrades
- Easier budgeting
- Reduced operational surprises

## EVOLUTION OF BVMS 11.X TO BVMS 13.X

| BVMS 11.0<br>Migration Campaign                                                   | BVMS 12.x<br>Campaign            | BVMS 13.x<br>Campaign               |
|-----------------------------------------------------------------------------------|----------------------------------|-------------------------------------|
| <b>Only systems with a valid Software Assurance PRO can upgrade to BVMS 11.0.</b> | <b>BVMS 12 introduced</b>        | <b>BVMS 13.x New Features</b>       |
| New Remote Portal licensing                                                       | Enhanced cybersecurity           | AI-supported search                 |
| Future-proof licensing platform                                                   | New analytics integration        | Advanced map visualization          |
| Easier lifecycle management                                                       | Expanded virtualization support  | Enhanced certificate validation     |
| Modern licensing architecture                                                     | Additional ONVIF capabilities    | Alarm handling enhancements         |
| Long-term software support                                                        | Modernized platform architecture | Vehicle identification capabilities |
| Preserve future upgrade rights                                                    |                                  | Gun in hand & Gunshot detection     |
